Our Facebook advertising service will give your business a professionally written advertisement that will be displayed to a minimum of 100,000 active Facebook users. Your ad can be written to target your own website or your existing Facebook fan page.

An example of a facebook advertisement can be seen below:

### **Reaching the Right Audience**

The main advantage of advertising on Facebook is that you can target your ad to a very specific audience. With the extensive profiles Facebook has built on its users, you can deliver your ads to specific demographics including gender and location. This profiling cannot presently be matched by search engines.

### **No Click Fees and Low Cost**

The other key advantage of advertising on Facebook is the low cost. With 100,000 ad displays starting from only \$49.00, it offers unbeatable value for money.

### **Do I approve my Facebook advertisement before it goes live?**

We will send you a report with a screen shot of your advertisement the day before it goes live. We use your instructions including proposed ad copy from your order information to create this. You do have the option of changing your ad at any time via our customer service team.

### **Why can't I find my advertisement on Facebook?**

You cannot see your ad or sponsored story actually running on Facebook unless you are part of the target audience you selected. Even if you are part of the target audience, you aren't guaranteed to see your ad or sponsored story because Facebook may have determined that other content is more relevant to you. Furthermore with millions of Facebook users, the odds to view your advertisement live are very slim.

### **How can I see how many clicks my Facebook advertisement has received?**

You will receive a report showing the actual impressions and clicks delivered for the previous 30 days after each renewal

### **What are the character limits for the title and body of my Facebook advertisement?**

Your ad, which must include a title and body, is limited to 25 characters for the title and 90 characters for the body.

### **How many cities can I include in my Facebook advertisement targeting?**

You can target each Facebook Ad to up to 3 cities.

### **Can I make changes to my Facebook advertisement?**

Changes to your ad copy and/or targeting options are allowed once per month and can be done so by contacting ineedhits.

### **Where do you get the image for my Facebook advertisement?**

We will get the image for your advertisement from the URL you enter when ordering. If you would like us to use a specific image please email us with the image. All ad images have dimensions of 100 pixels wide x 72 pixels tall.
